EDUCATION

Indian Institute of Information Technology, Ranchi
BTech in Computer Science and Engineering (AI & DS); CGPA 8.9

Ranchi, India
2023 – 2027

Army Public School, Barrackpore
CBSE 10+2

Kolkata, India
2011 – 2023

EXPERIENCE

Full-Stack Developer Intern

June 2025 – Present

Frondeur Labs

Remote

- Built a modern, responsive dashboard using Next.js and shadcn enabling clients to launch and monitor cybersecurity assessments
- Designed and containerized backend services using FastAPI and Docker, providing a scalable runtime for cyber threat analysis tools and ML models

PROJECTS

MealMap | Live 📄 | *Express, MongoDB, Next, Mapbox*

2025

- Developed a web application to connect food donors with NGOs or individuals in need
- Utilized Mapbox for an intuitive map interface enabling donors to easily drop their location and details on map and NGOs to see donors within their vicinity
- Implemented google OAuth and mobile-based PIN authentication using AWS SNS
- Used Web Push API and geospatial queries in MongoDB to send real-time notifications of nearby donations

Overleaf Resume Syncer | *Github Actions, Python, Selenium*

2025

- Built a Github Action to auto-sync and publish resume pdfs from Overleaf
- Published the workflow as a composite action to allow easy reuse in other repos
- Reduced action runtime by 50% by diffing latex source file and caching python dependencies

College Predictor | Live 📄 | *HTML, Bootstrap, Javascript, SQLite, Web scraping*

2024

- Crafted a user-friendly website to display JEE cutoffs with custom filters
- Scraped and processed 10,000+ entries from the official JoSAA website and stored them in a local sqLite database
- Enabled client-side querying with sql.js, delivering instant results with zero server load
- Attracted ~ 3000 users during May-June 2024, with an average engagement time of 2 minutes (according to Google Analytics)

cli Chatbot | *OpenAI API, Node.js*

2023

- Used OpenAI api to generate responses based on user input using the gpt-3.5-turbo model
- It maintains a chat history to provide contextually relevant responses

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS, SQL
Frameworks: Express.js, FastAPI, Tailwind, Mongoose, Next.js
Libraries: React, React Native, NumPy, Matplotlib
Developer Tools: Git, Docker, Github Actions, Firebase

ACHIEVEMENTS

- Participated in Smart India Hackathon 2024 and got shortlisted at college level
- Earned 3 stars rating on CodeChef and solved 150+ problems on LeetCode
- 600+ reps on Stack Overflow with active contributions
