EDUCATION

Indian Institute of Information Technology, Ranchi Ranchi, India
Bachelor of Technology in Computer Science and Engineering (DS & AI); CGPA 8.79 2023 – 2027

EXPERIENCE

Full Stack and AI Intern Dec 2025 – Mar 2026
Loam AI Remote

- Developed an algorithmic trading platform allowing traders to define custom trading strategies through a no-code visual rule builder
- Integrated Zerodha Kite Connect API for order placement and automated trade execution
- Conducted client demos, gathered feedback, and addressed edge cases

Full-Stack Developer Intern Jul 2025 – Nov 2025
Frondeur Labs Remote

- Designed a modern, responsive dashboard using Next.js and shadcn, developing 15+ pages to enable users to launch and monitor cybersecurity assessments
- Designed and containerized the backend application using FastAPI and Docker

PROJECTS

Scribbly | 🐙 📁 | *Next.js, Fastify, AWS* 2026

- Built a minimal blogging platform using microservices architecture with Next.js and Fastify
- Implemented inter-service communication using RabbitMQ and used Redis for caching
- Containerized services with Docker, deployed it on AWS using Terraform and GitHub Actions

Leetcode Enhancer | 🐙 📁 | *WXT, React, Typescript* 2026

- Built a cross-browser extension that injects UI enhancements into LeetCode
- Implemented features including difficulty ratings, restored dislike counts, automatic code formatting, and Monaco Editor patches, reaching 200+ users on Chrome Web Store
- Implemented a Playwright E2E test suite to catch breaking changes when LeetCode updates its frontend

College Predictor | 🐙 📁 | *HTML, Bootstrap, JavaScript, SQLite, Web scraping* 2024

- Crafted a user-friendly website to display JEE cutoffs with custom filters
- Scraped and processed 10,000+ entries from the official JoSAA website and optimized page load performance by caching assets with Workbox
- Attracted ~3000 users in 2024, with an average engagement time of 2 minutes (according to Google Analytics)

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS, SQL
Frontend: React, React Native, Next.js, Tailwind, Zustand, Shadcn
Backend: Express.js, FastAPI, GraphQL, Redis, RabbitMQ, MongoDB
Testing: Vitest, Pytest, Playwright
Developer Tools: Git, Docker, GitHub Actions, Firebase, Grafana, AWS

ACHIEVEMENTS

- Participated in Smart India Hackathon 2024 and got shortlisted at college level
- Earned a 3-star rating on CodeChef and solved 400+ problems on LeetCode
- 650+ reps on Stack Overflow with active contributions
- Open-source contributor to TablissNG, a browser extension with 5K+ downloads.
